

any of the subordinates of the executive; or (2) a specifically assigned task of the executive employees; or (3) practicably delegable to nonexempt employees in the establishment; or (4) repetitive and frequently recurring.

**§ 541.111 Nonexempt work generally.**

(a) As indicated in § 541.101 the term “nonexempt work,” as used in this subpart, includes all work other than that described in § 541.1 (a) through (d) and the activities directly and closely related to such work.

(b) Nonexempt work is easily identifiable where, as in the usual case, it consists of work of the same nature as that performed by the nonexempt subordinates of the “executive.” It is more difficult to identify in cases where supervisory employees spend a significant amount of time in activities not performed by any of their subordinates and not consisting of actual supervision and management. In such cases careful analysis of the employee’s duties with reference to the phrase “directly and closely related to the performance of the work described in paragraphs (a) through (d) of this section” will usually be necessary in arriving at a determination.

**§ 541.112 Percentage limitations on nonexempt work.**

(a) An employee will not qualify for exemption as an executive if he devotes more than 20 percent, or in the case of an employee of a retail or service establishment if he devotes as much as 40 percent, of his hours worked in the workweek to nonexempt work. This test is applied on a workweek basis and the percentage of time spent on nonexempt work is computed on the time worked by the employee.

(b)(1) The maximum allowance of 20 percent for nonexempt work applies unless the establishment by which the employee is employed qualifies for the higher allowance as a retail or service establishment within the meaning of the Act. Such an establishment must be a distinct physical place of business, open to the general public, which is engaged on the premises in making sales of goods or services to which the concept of retail selling or servicing applies. As defined in section 13(a)(2) of

the Act, such an establishment must make at least 75 percent of its annual dollar volume of sales of goods or services from sales that are both not for resale and recognized as retail in the particular industry. Types of establishments which may meet these tests include stores selling consumer goods to the public; hotels; motels; restaurants; some types of amusement or recreational establishments (but not those offering wagering or gambling facilities); hospitals, or institutions primarily engaged in the care of the sick, the aged, the mentally ill, or defective residing on the premises, if open to the general public; public parking lots and parking garages; auto repair shops; gasoline service stations (but not truck stops); funeral homes; cemeteries; etc. Further explanation and illustrations of the establishments included in the term “retail or service establishment” as used in the Act may be found in part 779 of this chapter.

(2) Public and private elementary and secondary schools and institutions of higher education are, as a rule, not retail or service establishments, because they are not engaged in sales of goods or services to which the retail concept applies. Under section 13(a)(2)(iii) of the Act prior to the 1966 amendments, it was possible for private schools for physically or mentally handicapped or gifted children to qualify as retail or service establishments if they met the statutory tests, because the special types of services provided to their students were considered by Congress to be of a kind that may be recognized as retail. Such schools, unless the nature of their operations has changed, may continue to qualify as retail or service establishments and, if they do, may utilize the greater tolerance for nonexempt work provided for executive and administrative employees of retail or service establishments under section 13(a)(1) of the Act.

(3) The legislative history of the Act makes it plain that an establishment engaged in laundering, cleaning, or repairing clothing or fabrics is not a retail or service establishment. When the Act was amended in 1949, Congress excluded such establishments from the exemption under section 13(a)(2) because of the lack of a retail concept in
